## Search Cases

Clicking search cases on any of the screens allows you to search for cases using: conveyed postcode; client name; LMS reference; or lender reference.

We always include the LMS reference in any emails we send to you regarding specific cases.

### Search cases

You may search for a case by conveyed postcode, client surname, LMS Reference, or Lender Reference. Simply specify type of search you wish to use, then enter the criteria.

Client surname searches accept a \* wildcard. So, you may enter S\* to search for names starting with S.

Select search type:

- Conveyed postcode**
- Client name
- LMS reference
- Lender reference

Searching by conveyed postcode

Search

If you are unable to view a case using our reference then this is most likely as the access level you have been granted restricts you from seeing the case. Your Conveyancer Zone administrator will be able to increase your permission level allowing you to view the case. If you continue to have problems please contact our IT Support team.

## Cases Assigned to you

This section shows all cases that have been assigned to you as the case handler.

You are able to sort the data by clicking on the headers, can use the search box to enter criteria that will search across the shown headers and view more cases per page. By default 10 cases will display per page, you can navigate pages at the bottom of the screen.

## View Addendums

When we start managing a panel for a lender the current panel members that meet their criteria are invited to accept the lenders Addendum to re-join the panel. In these instances you are able to complete this process by accepting the Addendum within this section of the system. You can access the panel Terms and Conditions and all applicable Addendums in this section of the system.

Addendums

This page contains the Panel Membership Terms and Conditions and Addendums for each of the lender panels that your firm is a member of. When you are mapped to a lender panel by LMS, for example when onboarding a new lenders panel, the Addendum will be available here for you to download and accept.

Panel addendums available to download and read

By ticking the checkbox(es) below you confirm that you have read and agree to each lenders Addendum. We are entitled to assume that the person(s) accepting the Addendum has sufficient authority to bind the firm. Each document must be downloaded and read before continuing.

Once the Addendum has been downloaded it can only be accepted by the same Panel Link Membership Manager if the version has not changed since the initial download. New users or Addendum changes will require a further download.
